

What is ATOM?

ATOM – Advanced Technology Outsourcing Management, an IT Solution Services.

Who is ATOM for?

Small & Medium Business (SMBs)

- Need a good IT environment/infrastructure set up for productivity and quality of services.
- Need a good IT security set up for protecting organization.
- Need an IT manpower but no budget.
- Need an IT manpower but no foreign worker's quota.

Large Organizations (LOs)

- Need a temporary IT manpower on project basis.
- Need additional IT manpower but no budget.
- Need additional IT manpower but no foreign worker's quota.

How it works?

Step 0 Orientation

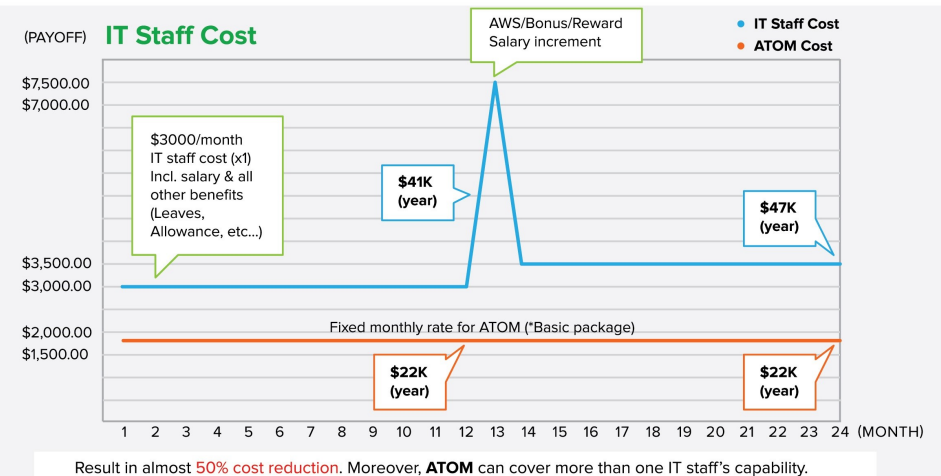

Step 1 Weekly visit – IT Technician provides First Level Network, Server, MIS (Management Information System) Support, ensures the workspace is secured based on IDS security checklist and understands the area of improvement and solutions for business growth by communicating with your employees and management.

Step 2 IT monitoring back end services to monitor the company network to track any abnormal traffic, and advise the most suitable solutions to tackle cyber threats.

Step 3 IT Security Awareness Training annually to your organization.
